

Frisco

52" POOL PACKAGE

Dare to Compare the Competitive Advantage

52" WALL WITH RUGGED, BAKED ENAMEL 9" RESIN TOP RAILS AND 7" RESIN VERTICALS WITH BEAUTIFUL RESIN TOP CONNECTORS.

Frisco walls are made from heavier copper bearing steel than industry standards - 30 to 60 pounds heavier than the competition.

Weigh the difference! Resin top rails are extruded giving them a smooth finish and increasing durability by eliminating top rail rocking for maximum strength.

Sophisticated, silver-tone colored resin top connectors.

Compac Supports extend only 9 inches beyond the sidewall, not the standard 36 inches used by competitors.

This accommodates larger pool models in smaller backyards.
